	1	13		2	14			

Comments

- Loved the content. It would have been great if he had trimmed the number of slides to the essential content so it didn't feel smooched. I think that an additional presentation with a practical example or case study or a few case studies would be excellent.
- There were too many slides. The handout did not match the presentation. Recommend, in future, that the speaker choose a smaller aspect of the topic, cover it more thoroughly, and provide examples or case studies.
- Great info packed into a concise timeframe.
- Reminding me of topics, word usage, and terms that haven't been used practically in a while. Networking was excellent!
- Interested in Risk Management.
- Food is getting better! Can we reduce costs??
